

4/29/13 (2)

0:50 Digestive disturbance, bloating, and edema have returned
Healing reaction - detox - reliving what you went through before
If you don't hold on to the symptoms, they will pass through.
Could I be taking too many drops?
Can cut back on the drops if things are going too fast for you.
Would like you to work it out so you could split up during the
day.
Instead of one big jolt; split up the message.
Are the RNA Drops complete nutrition?
We aren't going to start out telling you that. Come to those
questions by yourself.
Eat what you enjoy.
Reoccurring symptoms - mental/emotional issues.
Homeopathy for emotional healing.
Labyrinth of the mind is the mental/emotional wind up.

8:10 Paramedic
Dad had 14% heart use and blockage. Too weak for surgery.
Magnesium Chloride, B6, and Vit C via IV push for 2 weeks.
All the ingredients are in ReAline and ReMag.
Aunt continued IV pushes.
Father opted out from surgery because he feels better with
RNA Drops, ReMag, and ReAline.
Cardiologists don't know why his markers are up.
Carolyn's work on magnesium is huge.
Husband is starting to test for magnesium deficiency (doctor).
Father allowed himself to make this change.
Shifted away from his stories.
Didn't want to hear what the doctor's drama was.
Asked father how he felt.
Power of the Word
Held hostage by doctors to allopathic medicine and drugs.

17:26 Should I take ReAline at the same time. Have I been missing out
by not taking ReAline?
Complimentary product right after RNA Drops, balances Drops.
Two sulfur based amino acids with Vit B6.
Precursor to glutathione.
Provide sulfur based amino acids to grow new cells and not
readily available in food.
iON said amino acids are critical.
Nothing wrong by not taking them. Everything in its own timing.
Come to ReAline as a companion product or going too fast on
RNA Drops.

20:40 Using ReNew topically on unusual places.
Spinal area.
ReNew along with drops eliminated swollen prostate condition.
Relieves feeling of having to go to the bathroom all the time.
Goes all day with normal function. No cancer worries.

23:41 Body on ReLyte

Aches and pains of regrowth won't last forever.
Something's happening. I've got movement. Something great is happening. Some transformation is happening.
Body going through growth spurt.

25:17 Problems sleeping.
Fall asleep and stay asleep.
Astral travel and ascension interest effecting sleep?
Not being directive enough on what you want at night.
Working on deep breathing.
Declare you want to sleep all night.
If you want a different experience, ask for it.

27:51 Golf swing is improving.
Not really tired at the end of the day.
Getting used to the idea that there is no time.

31:18 Lump breasts.
New doctor scared me to death.
I told her I had cystic breasts and that it's nothing new.
Reference to Dr. Galena.
Totally blind and husband with her.
Removed her eyes because of cancer as a child.
Dr. Galena said my breasts were fine. Fibroids in uterus.
Taking nascent iodine.
Got to get rid of these fibroids like yesterday.
54 years of age.
Have testimonials about fibroids. On website.
They can go away. This calcification in the breasts. That is magnesium deficiency.
Taking magnesium is very important.
Topical magnesium oil. Not getting results from product I'm taking.
ReMag is not going to help constipation.
You need magnesium oxide for constipation. Get one from health food store that doesn't have binders and fillers.
Not going to do much for health of body but will act like a gentle laxative.
Taking jing herbs for hot flashes.
Hormones are triggering fibroid a bit.
Hot flashes - things should be settling down.
Dr. Galena is a Slavic medical doctor in L.A.
Universal Medical Imaging in L.A.
Thermography for the whole body.
Keep using the oil. ReMag is important to get at calcification in soft tissues and get cells to dump calcium.
Iodine will help decrease lump breasts as well.
Nascent iodine is what I recommend.
Think high doses are too much.
Call into question your own God-Given right to your own health and your own power.

43:13 Type I Diabetic Daughters on RNA Drops, ReMag, ReAlone
Could they have sudden drop in blood sugar?
15 years with diabetes; in mid 20s.
Insulin takers.
Total Biology is about adding sweetness to life.
RNA Drops are super sugar that helps digest sugar in the body.
Specific to balancing blood sugar gradually.
Testing blood sugars a couple of times a day. No surprises then.
Follow very carefully with blood sugar levels.
Magnesium will also be helpful.
Adjust dosage as you follow the blood sugar levels.
Can someone who has had an organ transplant take RNA Drops?
I can't see where it would be a problem.
Barley formula. They are food. Can be taken in tiny doses.
Don't want to rev things up too quickly.
Liver transplant friend takes magnesium. Only supplement doctors
would let him take.

48:21 Taking Calm.
Can we take too much magnesium?
Too much magnesium is not an issue. If you take too much, you
have the laxative effect. That's evolution.
We grab on to calcium like nobody's business. Ratio of calcium
to magnesium 700 mg:700 mg. Most calcium you can get from
your diet.
Dairy, leafy greens, nuts and seeds, bone broth.
Magnesium is difficult to get. Soil is depleted from magnesium.

52:32 Low blood platelets? RNA Drops is a food. Not a medicine.
Get mini bottle and try it. We have no testimonials.

52:46 Beneficial for 90+ year old man.
Newly diagnosed with cancer. Pancreas and liver.
Possible. Watch Vit D3. High doses can pull in too much calcium.
Are getting testimonials that are promising. Add magnesium.

53:31 Type I Diabetes. 3 drops per day.
Healthiest she has ever been. Sugar does go up.
But, she is very healthy. Hasn't missed school.
Blood sugar may be the last thing to shift.

54:30 Brachial Radial Puritis
Arm being itchy.
Have had for 30 years.
Want to get off of neurontin.
Runner in sun when I run.
Related to histamine?
