	20:07	<p>Absorption of ReMag and ReLyte</p> <p>These products are foods not drugs.</p> <p>Get off the medicinal level of the products.</p>
	22:59	<p>Less back pain.</p> <p>Better sleep.</p> <p>Testimonials for Magnesium Advocacy Group.</p>
	24:45	<p>Health Freedom Expo</p> <p>Guy who took the drops was very excited and enthused.</p>
	26:34	<p>Size 14 to Size 8 - only 5 lbs more</p> <p>Strong; more muscles</p> <p>Sleeping a lot.</p>
	27:39	<p>What you see is not real. What you can't see is real.</p>
	29:18	<p>Rule about sleeping</p>
	39:06	<p>Everything is changing. You just get used to it.</p>

Change is ongoing. You don't give symptoms of change too much attention.

31:12 Do people with larger deficiencies have bigger results?
Is denial a factor about changes occur?
Minerals, yes. RNA Drops, it's individualized.
Words of denial can shut things down.
There are benefits to denial.
iON says to clear something is to deny it.
"Thank you very much, I'm not interested."
iON's six degrees of separation about knowing.

37:45 Afib since last November
Digoxin, Metropolol
Stopped taking RNA Drops about 6 months ago
Will the Drops be all right? Yes.
Start with one drop twice a day.
With all those medications and Afib, are you on magnesium?
Magnesium is so individualized.
You probably need 2 tsps a day.
That would be 4 squirts twice a day.
Get a Magnesium RBC Blood test and see what your levels are.
You want them at the higher end of normal.
1.2 would be a serum magnesium test.
Should I be taking the ReAline as well. Yes, with the meds.
90% of health conditions come from the contrast.

48:57 2 months in refrigerator. Fermentation on bottom of bottle.
Took clean chop stick and stirred fluid up in bottle.
Settling of the I-Cells in the bottom of the bottle. Appropriate to shake them or stir the bottles up.
Put it in big bottle of water for the plants, if I haven't used it.

51:32 The Drops take the stink away from having sex.

52:09 What is RNA Drops?
Who is iON?
What does RNA Drops being a technology mean?
